Get 'Greenspiration' Galore with our 2024 Green Guide

The UK is home to some of the world's most stunning landscapes, eclectic cultural hotspots, richest heritage, and innovative eco attractions - no wonder 73% of Brits are keen to try out new destinations on their home turf! However, despite there being an appetite for adventure, our research reveals 60% admit they're creatures of habit, visiting the same destinations year after year, with their lack of knowledge preventing them from exploring further.

2021 saw the launch of the first ever LNER Green Guide, designed to provide staycation inspiration that will get you out of that travel rut to explore the best that the UK has to offer whilst making sustainable choices. This is the latest in the series of guides that has so far covered everywhere from **Edinburgh** to **London**, **Durham** to **Lincoln** and **Inverness** to **Harrogate**.

For this fourth guide, we've teamed up with leading travel and tourism partners **St. Pancras International**, **Southeastern**, **Visit Kent** and the **King's Cross Neighbourhood** to launch an extended version of the popular series.

This time, we're bringing you travel inspiration from more hidden gems and under-discovered destinations across the South and East Coasts of the UK - focusing on **Canterbury & the East Kent Coast**, **Ashford & Folkestone**, **Aberdeen**, **King's Cross Neighbourhood**, **St. Pancras International** and **Leeds**.

For each destination, you'll find a wealth of eco-travel inspiration from hotels with forward thinking sustainability policies, to attractions with award-winning green credentials, and 'food for thought' in relation to gastro hotspots famed for only using local produce.

The icing on the cake? With train travel being the most eco-friendly form of transport, you can be safe in the knowledge that you're able to travel to each of the destinations profiled in this guide guilt-free. Better yet? LNER's Leeds and Aberdeen suggestions can be reached via our world-class sustainable fleet of electric Azuma trains.

So grab a drink, enjoy browsing, and start dreaming. A staycation that delivers on all fronts is only a 10-minute read away!

David Horne, LNER Managing Director
