

southeastern

A high-speed train, likely a Class 350, is shown from a front-on perspective inside a large industrial maintenance bay. The train has a dark blue upper body and a yellow lower body. It is positioned on tracks, and the bay is filled with various mechanical components and overhead lighting. The scene is framed by large blue geometric shapes in the top left and bottom right corners.

# **Train performance results**

For all Southeastern stations

se

## **Train performance results by Southeastern station.**

Find out how many of our trains arrived at a station within 3 minutes of their advertised time, how many arrivals were cancelled per station, and how Southeastern is doing compared with other train operators.

- Time to 3: The percentage of trains arriving less than three minutes after their advertised time.
- Cancellations: The percentage of arriving services that were 'cancelled'.
- Source: Network Rail.
- Stations listed: All stations where Southeastern is the Station Facility Owner.

# Period 11
